Thanks for your reply.

I think you have already started looking into this, from what I have heard recently, for the Braeside alvar.

There is a very serious threat to it from a proposed Quarry expansion, and the company is already destroying swaths about 20m wide to put in some test wells.

My wife Paula, copied on this email, is working on this as well. Please feel free to speak to either of us at 613-623-6610.

Thanks!!

Robert
