Thanks Daryl, I'll look forward to seeing them.

I think the landowner is getting cold feet as I basically can't get him to return calls or pass on an postal address so I can send him a copy of the report. I've called him on his cell phone twice in the last couple of weeks but he begs off as being in the middle of an important meeting and offering to call back later. He hasn't. It's a bit delicate as I'm reluctant to push too hard for fear he'll say 'shove it', but I do wish he'd have the courtesy to let us know where it stands. Amongst other considerations, I've given up several days income for this, which I was happy to do in such a good cause, and I'd like to think it was for more than giving this guy a sense of development options ! Hopefully I'm wrong on this - or perhaps we can get the site for a subsequent would-be developer - but I am not holding my breath.

I'll let you know if we get a clear indication one way or the other.

Cheers,
Dan

Hi Dan,

Thanks for sharing with me the great report you put together for NCC! I hope something works out with them.

I recently dropped a CD of jpeg photos in the mail to you from those I took during our trip to the alvar - enjoy!
(So sorry for the delay in getting them out to you).

Regards,

Daryl Coulson
